Descrizione

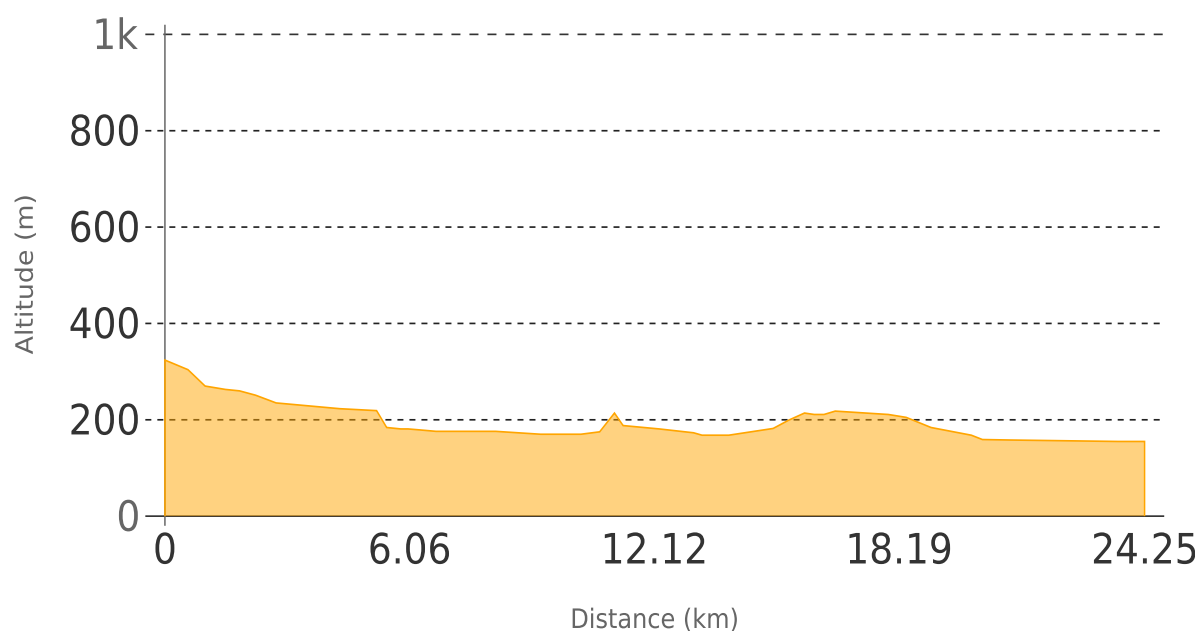

Se percorsa in una bella giornata di sole, questa tappa può diventare indimenticabile grazie ai panorami sconfinati che si godono dai crinali della Val d'Arbia, che vengono percorsi lungo interminabili strade bianche.

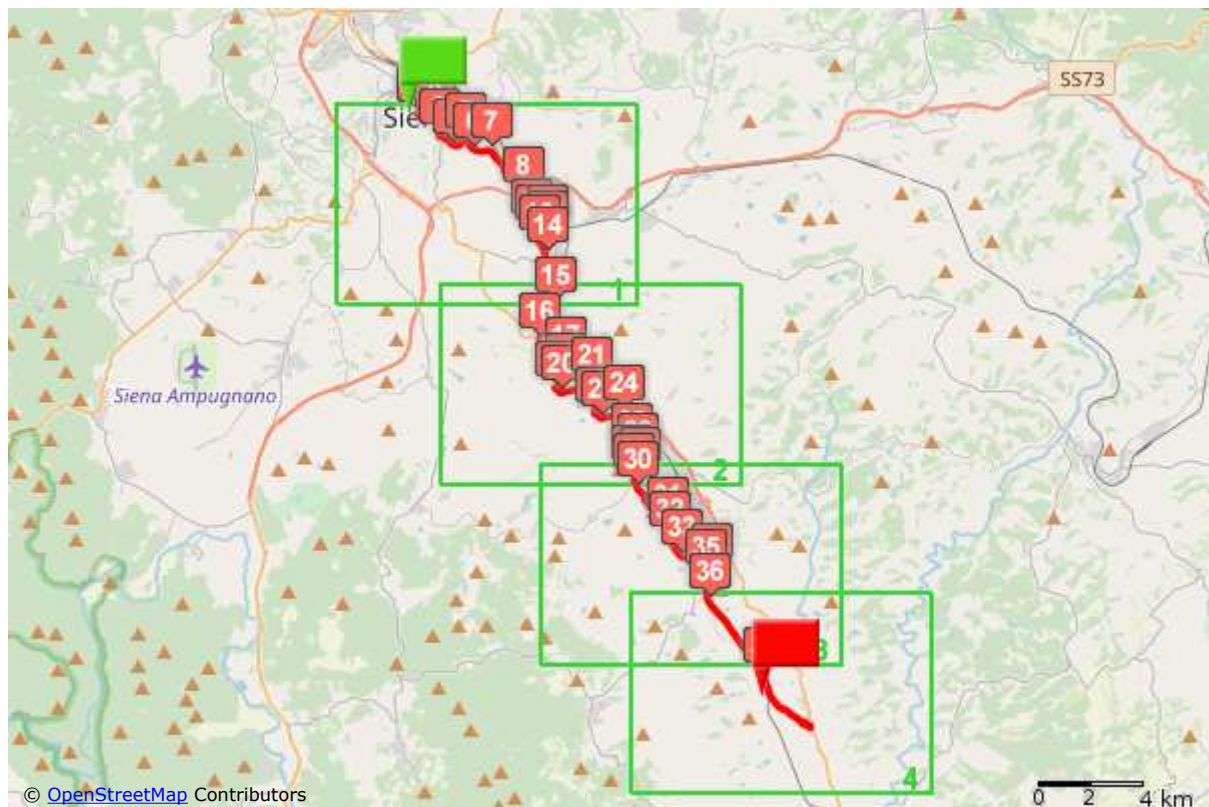

Dietro di noi possiamo ammirare il profilo di Siena, adagiata sulle colline all'orizzonte.

La Grancia di Cuna, antico granaio fortificato, è la principale attrattiva storica di questo tratto.

Per trovare un punto di ristoro bisogna arrivare a Isola d'Arbia, mentre l'acqua si può trovare anche alla Grancia di Cuna e a Quinciano.
