Descrizione

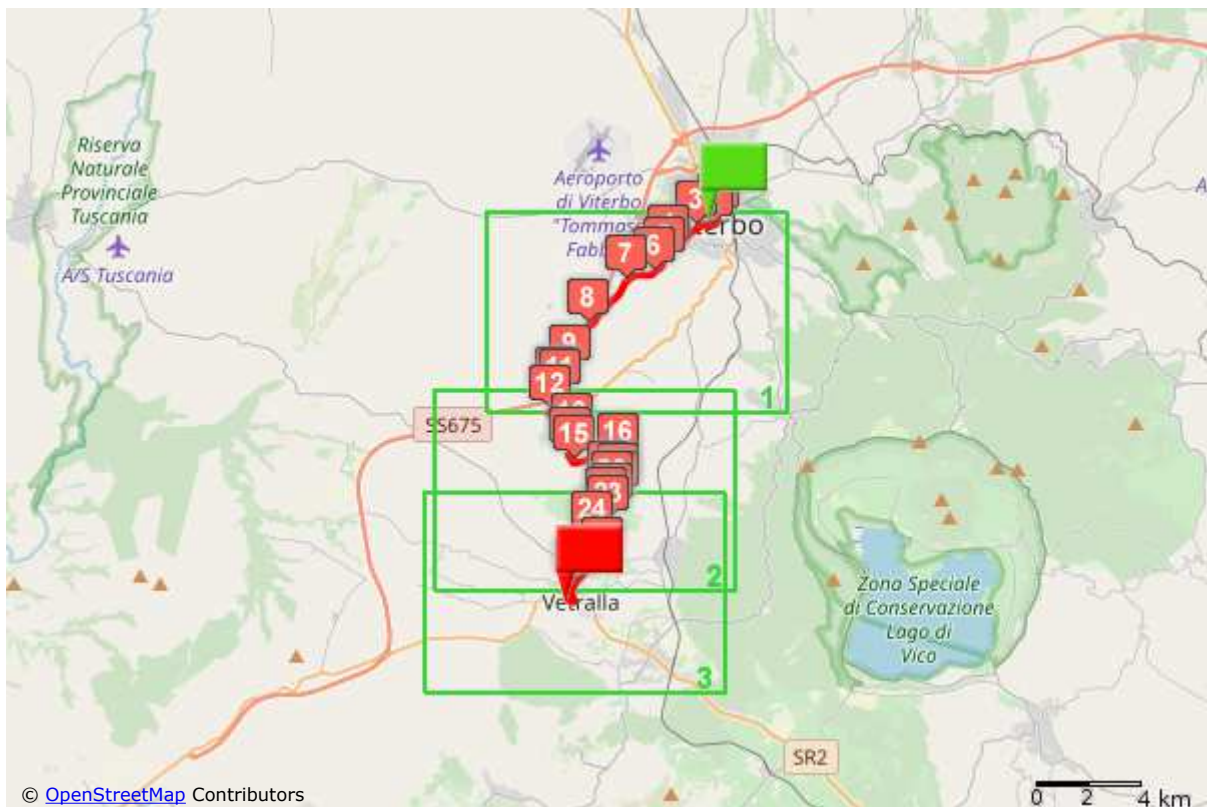

Alle porte di Viterbo, effettuando una piccola deviazione, possiamo visitare i ruderi di Ponte Camillario, antico manufatto romano seguendo la variante.

Il percorso è un saliscendi tra campi e boschi, reso impegnativo solo dalla totale mancanza di acqua e punti di ristoro lungo il percorso.

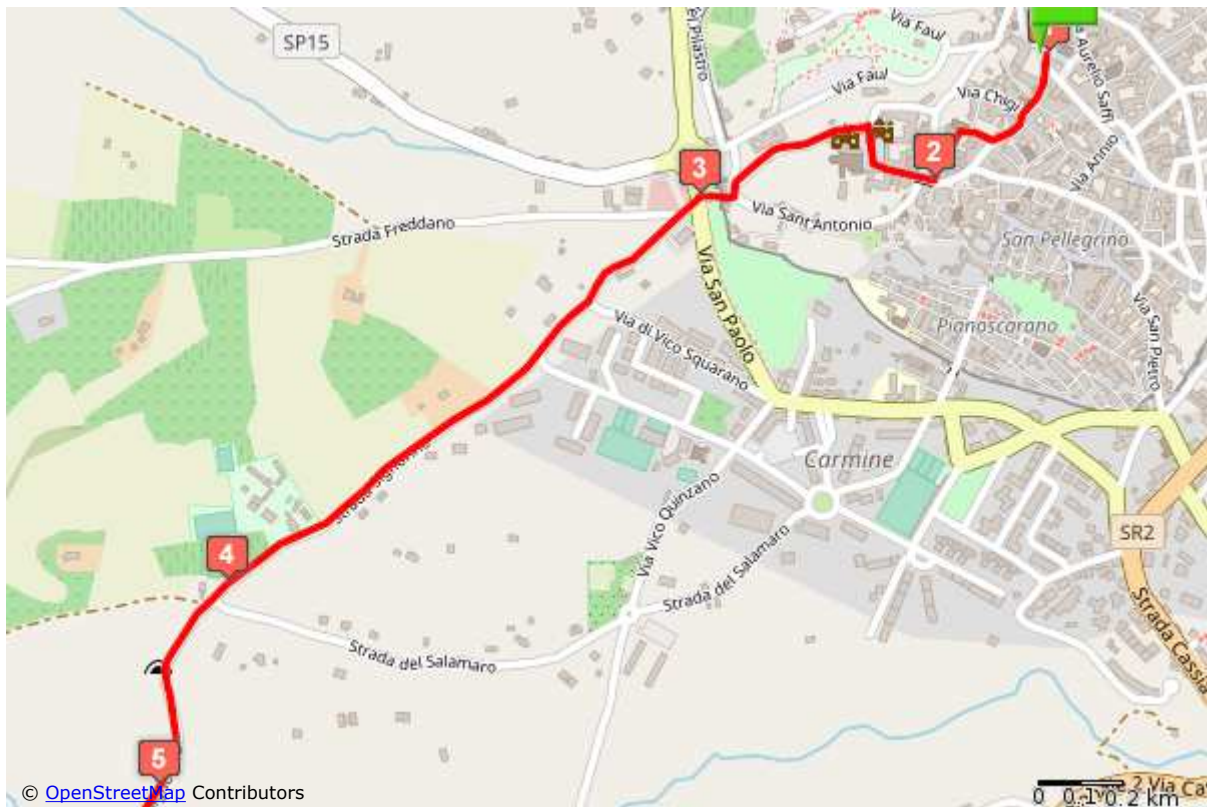

Alle porte di Vetralla, con una piccola deviazione possiamo visitare i ruderi della Pieve di S. Maria di Forcassi.
